March 28th, YOR 2033

The heroes push toward the location of the goblin camp. However, just as they are making camp they encounter the Red Oubliette. This large ruddy springhouse is actually a former site of the Order of St. Reynard. They enter, and fight some of the corpses of the Rotten. Mortals who have succumbed to the Kiss of Mugdulglub and become walking oozes themselves.

They find several crates and chests with gifts from the Gorgons. A crown of snakes and a golden scepter. They also find a pair of Red Goo hiding amongst the treasure. Chummo encounters an Ebon Ooze further down the right passage while Ivo encounters a third Red Goo lurking in a dry fountain to the left.

The heroes push deeper into the forgotten complex of the Knights of St. Reynard. In a central room, they find more of the rotten along with rotten magi doing some sort of dark ritual over a yawning chasm. The heroes destroy the pasty monsters and continue.

They encounter some of the sarcophagi of the fallen knights, still left undisturbed by the alien slime folk. They clean out the artifacts from these fallen heroes, and move on to the final rough-hewn room. Here, they encounter more Ebon Oozes along with a Plasmoid mage. It seems that the ooze-folk who are plotting against Algart are also in league with the Gorgons. After destroying all the sentient ooze-folk, the heroes cleverly lure the remainder to their fiery deaths.
