

Hanging Plot Threads

What plot is still left dangling out there now that I'm taking a break from the GM seat? Here are some bullet points along with relevant text from plot tickets and logs.

- How is Ping related to the Queen of Air and Darkness?

The queen points at Ping's sword. She says that she has recognized Ping from it. She removes the veil and the party realizes that although she's probably not Ping's mother, aspects of her features suggest that she is most certainly a relative of his.

Since you've returned from the Feywild you are shocked at your meeting with the Queen of Air and Darkness. Once she removed her veil, it certainly seems like she was a distant relative. Is she a grandmother? An aunt?

So now you know you have family in the Fey. Your mind wanders. Inside are you really just as twisted and sadistic as the Winter Court?

- Where has Nigel's mother Willow "Ghost" Aeofell been all these years?

It has been years since your mother, Willow "Ghost" Aeofel dropped you off on a rock near the coast of Highport and sailed off into the sunset in her cutter "The Banshee." It was time for you to leave and find adventure on your own. If you ever need her, she left you with navigation maps to Portusclepta - the secret island of pirates - tattooed in code somewhere on your body.

Willow has drawn comparisons to Elven pirates in the past like the semi-mythical "Deathly" Lura Ofrey. Lura was known for her divine singing voice as well as her inspired yet crazy skills commanding a sailing vessel. On the seas any high-risk high-reward sailing is known as an "Ofrey."

- Why does Nigel's mother want to rule the Serene Expanse? How does Nigel fit into that plan?
- What happened to Eleanor, Ellie's maternal grandmother?

From your readings of Eleanor's journals, you have learned that with a few exceptions there were three others who spent the most time adventuring with her as a party:

- Isabelle - A vivacious human militant nun paladin of the order of Pippins
- Selene - A trickster half orc cleric, perhaps a servant of the Traveller
- Gant - A halfling thief who could be tougher than he looked when he had to

All of them passed of natural causes before Ellie was born. Eleanor would often babysit young Ellie. Ellie was just a toddler when her grandmother abruptly pointed out where her journals were located before hiding Ellie and leaving the house. Eleanor was never seen again. All magic indicates she is dead, but no body was ever found.

- Will Duck's commanding officer Sven ever try to get revenge?
- Will Abraxas ever be able to get back to his collections? Once Abraxas realizes that not only did Nigel do the deed but also has the password, how will Abraxas try to get HIS body dead or alive?
- Will the conflict between Bezos the Vendor and Abraxas the Collector continue?
- What does the Traveller want?
- Bartleby's marriage and domestic life
 - He meets and marries Evie Finnbuckle - Ellie's sister. Together, both of them settle in Highport selling pastries at "Evie's Edibles"
 - The two of them begin to have too many kids and the party becomes aunt and uncles
